

AMELIE LOUNGE CHAIR

Amelie is a model which combines a high level of comfort with a clear minimalist shape and a silhouette underlined by leather piping around the shell – a shell whose striking contours are the hallmark of the whole family and the basis for the Amelie lounge chair. With its simple minimalist lines, this variant follows the classic Amelie design approach while its inward-folded cushion creates lots of padding volume and guarantees increased comfort. Regardless of the position, its additional back length and lightly upholstered neckrest make the Amelie lounge chair especially pleasant to sit in.

BIRGIT HOFFMANN & CHRISTOPH KAHLEYSS

Birgit Hoffmann (*1968) and Christoph Kahleyss (*1963) both studied industrial design in Kiel. Since 2010 they worked together for international renowned companies. Beside furniture they also work on several interior design projects.
